

Planning Assistance Directory

This Planning Assistance Directory was prepared to help municipalities that are engaged in proactively developing their town's housing stock or studying feasibility and best practices for creating mixed-income housing. The following list is neither comprehensive nor an endorsement or recommendation of any firm or individual; the Partnership for Strong Communities is not qualified to assess the suitability of any consultant for a municipality's needs. This list is provided purely to assist municipalities identify a consultant faster and easier. The descriptions of services are highly abbreviated, and may not reflect the breadth of a firm's work.

If you or your company are not listed here, and wish to provide related services to Connecticut municipalities, please contact us and request to be added:

*Sean Ghio, Policy Director
