Source: 2011-15 American Community Survey

East Haven saw its number of housing units increase by 6% from 2000 to 2015. Renters live in 26% of East Haven’s housing stock, compared to 33% for New Haven County and 30% for Connecticut.

Units in Structure

Overall, 66% of CT’s occupied housing stock is comprised of single-family housing, while 33% is multifamily housing (2+ units in structure) and 1% is mobile homes.

In East Haven, 71% of occupied homes are single-family, 29% are multifamily (2+ units in structure), and 0% are mobile homes. Renters live in 70% of East Haven’s 3,285 multifamily homes, and owners occupy 88% of its 7,928 single-family homes.

Year Built

CT’s housing stock varies in age, with 22% built before 1939, 36% built from 1940 to 1969 and 42% built from 1970 on.

In East Haven, 15% of the housing stock was built prior to 1939, 39% was built between 1940 and 1969 and the remaining 46% was built after 1970. Shifting demographics indicate that housing built from 1970 on may not meet the needs of CT’s current and future residents.

Bedrooms

A majority of homes in CT have 3 or more bedrooms, with 37% having 3 bedrooms and 22% having 4 or more. 42% of the homes in the state have 2 or fewer bedrooms.

Over 53% of homes in East Haven have 3 or more bedrooms, while 47% have 2 or fewer bedrooms. Towns and cities that have larger homes with more bedrooms offer fewer housing options for younger workers or downsizing Baby Boomers.
**Housing Costs for Owners and Renters**

### Affordability

Across CT, 50% of renters and 32% of owners spend more than 30% of their income on housing. In East Haven, 54% of renters spend more than 30% of their income on housing, while 36% of owners do the same. Households that spend more than 30% of their income on housing may have little left over for necessities such as transportation, food, health care, etc.

### Home Value

The value of homes in Connecticut has risen significantly over the last 15 years, putting home ownership out of reach for many middle-class households. In East Haven, 75% of homes were valued under $150,000 in 2000, compared to 18% now. The median home value in East Haven is now $209,400, an increase of 68% since 2000.

**Self-Reported Value of Owner-Occupied Homes: East Haven**

![Graph showing home value distribution](image)

### Gross Rent

According to 2011-15 American Community Survey data, 57% of East Haven’s 3,255 rental units have a gross rent over $1,000 per month and 17% have a gross rent under $750 per month.

**Rental Units by Gross Rent: East Haven**

![Bar chart showing gross rent distribution](image)

### Housing Costs & Income

**Owner Households: East Haven**

The average homeowner household in East Haven has a median income of **$74,301**

- **Households with a Mortgage**
  - Median Income: **$80,440**
  - Median Monthly Owner Costs: **$1,836**

- **Households w/out a Mortgage**
  - Median Income: **$64,172**
  - Median Monthly Owner Costs: **$781**

**Renter Households: East Haven**

- **Median Income Renter Households:** **$31,908**
  - 49% less than the median income of all households.
  - 41% of income spent on rent.

- **Median Gross Rent:** **$1,096**
  - 59% of income for all other expenses.

In Connecticut, incomes among those who own their homes tend to be much higher than incomes for renter households. However, incomes for owners who no longer pay a mortgage also tend to be lower than for those paying a mortgage, as those no longer paying a mortgage may be retired and living on fixed incomes.

**February 2018**
**Housing Wage**

2017 Housing Wage: East Haven

$25.48

East Haven is included in the New Haven-Meriden Metro Area.

Each year, the National Low Income Housing Coalition calculates the “housing wage,” the hourly wage needed for a household to afford a typical 2-bedroom apartment in metro areas throughout the United States.

Connecticut’s housing costs are typically high, ranking #8 in 2017 with a housing wage of $24.72.

**Building Permits**

Connecticut saw a sharp decline in building permits following the crash of the housing market in the mid-2000s. As the housing market slowly recovers, statewide building permits have increased by small amounts since 2011, with permits for multifamily units at levels not seen for a decade. Building permits issued, however, remain well below the levels seen in the 1980s and 1990s.

**Affordable Housing Appeals List**

Each year the CT Department Of Housing surveys municipalities in the state to determine the number of affordable units each has. The data is compiled for the Affordable Housing Appeals List. The following housing units are counted as affordable in East Haven in 2016:

<table>

## East Haven’s Housing Data Profile: The Story Behind the Numbers

East Haven, like most of Connecticut’s cities and first-ring suburbs, has a low-to-moderate median household income, relatively low housing costs, a substantial if aging supply of units for teachers, nurses, electricians, firefighters and town workers, but a still too narrow range of housing choices for Baby Boomers seeking to downsize and Millennials and young families seeking to move to town.

Housing remains expensive in East Haven relative to the median household income. Statewide, 50% of renters and 32% of homeowners spend 30% or more of their household incomes on housing. In East Haven, where the $63,120 median household income is lower than the statewide median of $70,331, 54% of the town’s renters and 36% of its homeowners spend 30% or more of their income on housing.

East Haven is one of the few Connecticut municipalities that could see a stable school enrollment through 2030 because of a projected flat school-age (5-19) population from 2020 to 2030. At the same time, its population is getting much older, with a projected increase of 12% in the 65+ population from 2020 to 2030, potentially leading to the need for smaller, denser, more affordable homes closer to the town center, services and, if possible, transit connections.

While the number of renting households in Connecticut has increased from 30% to 35% since 2007, many towns are ill-prepared to accommodate the needs of renters. East Haven has a fair amount of modestly sized homes to offer (47% units are 0-2 bedrooms, compared to 42% statewide). However, East Haven is one of 118 Connecticut municipalities with single-family homes dominating its housing stock (71%), mostly because many of those towns built the bulk of their homes after 1970 (46% in East Haven) to accommodate the needs of new Baby Boomer families then in their 20s.

Now in their 60s, those families are seeking more modest homes. But their attempts to sell are being met by few offers because few young families can afford to move to those towns, flattening median sales prices and stunting the growth of Grand Lists – the towns’ total value of real property – and thus property tax revenues needed to pay for increasingly expensive services. From 2008 through 2016 (latest OPM figures), 150 towns experienced negative growth in real property values, 2 had no growth and 7 had only slight growth of 2 percent or less. The total real property Grand List in East Haven declined significantly by 16% from 2008 through 2016.

Across the state, 138 of the 169 municipalities have affordable homes totaling less than 10% of their housing stock. These are the kinds of homes increasingly sought by young professionals, families, town workers, downsize Baby Boomers and others. In East Haven, 8% of the homes are affordable, according to the state’s 2016 Affordable Housing Appeals List.
