Source: 2011-15 American Community Survey

Median age for those living in New Haven is 30.3 years old, 10.1 years younger than CT’s median age of 40.4 years old.

Race and Ethnicity: New Haven

- Hispanic or Latino (of any race): 36,715 (28%)
- White: 40,866 (31%)
- Black or African American: 42,428 (32%)
- American Indian and Alaska Native: 193 (0%)
- Asian: 6,648 (5%)
- Hawaiian and Other Pacific Islander: 40 (0%)
- Other/Multi-Race: 3,722 (3%)

Source: 2011-15 American Community Survey

Household Income

New Haven’s annual median household income in 2015 was $37,192, 47% less than Connecticut’s median household income of $70,331. It is 40% less than New Haven County’s median household income of $61,640. New Haven’s median household income ranks 167 (1=highest, 169=lowest) among CT’s 169 municipalities.

Aging of the Population

New Haven is one of the 48 Connecticut municipalities projected to see a rise in their school-age population between 2020 and 2030. Many municipalities will see declines over 15%. In New Haven, the projected increase is 5%. Meanwhile the 65+ population for New Haven is projected to increase by 7%.

Source: CT State Data Center
New Haven saw its number of housing units increase by 7% from 2000 to 2015. Renters live in 62% of New Haven’s housing stock, compared to 33% for New Haven County and 30% for Connecticut.

Overall, 66% of CT’s occupied housing stock is comprised of single-family housing, while 33% is multifamily housing (2+ units in structure) and 1% is mobile homes.

In New Haven, 26% of occupied homes are single-family, 74% are multifamily (2+ units in structure), and 0% are mobile homes. Renters live in 86% of New Haven’s 36,602 multifamily homes, and owners occupy 70% of its 13,109 single-family homes.

CT’s housing stock varies in age, with 22% built before 1939, 36% built from 1940 to 1969 and 42% built from 1970 on.

In New Haven, 51% of the housing stock was built prior to 1939, 24% was built between 1940 and 1969 and the remaining 25% was built after 1970. Shifting demographics indicate that housing built from 1970 on may not meet the needs of CT’s current and future residents.

A majority of homes in CT have 3 or more bedrooms, with 37% having 3 bedrooms and 22% having 4 or more. 42% of the homes in the state have 2 or fewer bedrooms.

Over 34% of homes in New Haven have 3 or more bedrooms, while 66% have 2 or fewer bedrooms. Towns and cities that have larger homes with more bedrooms offer fewer housing options for younger workers or downsizing Baby Boomers.
Affordability

Across CT, 50% of renters and 32% of owners spend more than 30% of their income on housing. In New Haven, 57% of renters spend more than 30% of their income on housing, while 40% of owners do the same. Households that spend more than 30% of their income on housing may have little left over for necessities such as transportation, food, health care, etc.

Home Value

The value of homes in Connecticut has risen significantly over the last 15 years, putting home ownership out of reach for many middle-class households. In New Haven, 75% of homes were valued under $150,000 in 2000, compared to 31% now. The median home value in New Haven is now $191,800, an increase of 84% since 2000.

Gross Rent

According to 2011-15 American Community Survey data, 58% of New Haven’s 35,397 rental units have a gross rent over $1,000 per month and 23% have a gross rent under $750 per month.

Housing Costs & Income

Owner Households: New Haven
The average homeowner household in New Haven has a median income of $74,144.

Households with a Mortgage
Median Income: $79,641
Median Monthly Owner Costs: $1,892

Households w/out a Mortgage
Median Income: $60,250
Median Monthly Owner Costs: $818

Renter Households: New Haven

Median Income Renter Households = $28,380
24% less than the median income of all households.

Median Gross Rent = $1,100
47% of income spent on rent; 53% of income for all other expenses.

Housing Wage

**2017 Housing Wage: New Haven**

$25.48

New Haven is included in the New Haven-Meriden Metro Area.

Each year, the National Low Income Housing Coalition calculates the “housing wage,” the hourly wage needed for a household to afford a typical 2-bedroom apartment in metro areas throughout the United States.

Connecticut’s housing costs are typically high, ranking #8 in 2017 with a housing wage of $24.72.

Building Permits

Connecticut saw a sharp decline in building permits following the crash of the housing market in the mid-2000s. As the housing market slowly recovers, statewide building permits have increased by small amounts since 2011, with permits for multifamily units at levels not seen for a decade. Building permits issued, however, remain well below the levels seen in the 1980s and 1990s.

Grand List

**Real Property Grand List Values, 2008-16: New Haven**

- Total Real Property 2008: $5,646,072,635
- Total Real Property 2016: $5,732,369,040

**% Change, 2008-16**: 2%

Connecticut housing prices declined precipitously after the 2008 financial crisis and have not rebounded to pre-crisis levels, particularly in municipalities - 113 of 169 - where housing stock is dominated by single-family homes. Across the state, 152 municipalities have seen either no change in real property grand lists, or declines, forcing most to raise mill rates, reduce services, or both.

Affordable Housing Appeals List

Each year the CT Department Of Housing surveys municipalities in the state to determine the number of affordable units each has. The data is compiled for the Affordable Housing Appeals List. The following housing units are counted as affordable in New Haven in 2016:

**Assisted Units Counted in 2016 Appeals List:**

- New Haven
  - 9,055 Governmentally Assisted Units
  - 5,709 Tenant Rental Assistance
  - 1,029 CHFA/USDA Mortgages
  - 639 Deed Restricted Units
  - **16,432 Total Assisted Units**

**Calculation of % of Total Units Assisted:**

\[
\text{Units Assisted} = \frac{16,432}{54,967} \times 100 = 29.9\%
\]

New Haven’s Housing Data Profile: The Story Behind the Numbers

New Haven, like most of Connecticut’s cities and first-ring suburbs, has a low-to-moderate median household income, relatively low housing costs, a substantial if aging supply of units for teachers, nurses, electricians, firefighters and town workers, but a still too narrow range of housing choices for Baby Boomers seeking to downsize and Millennials and young families seeking to move to town.

Housing remains expensive in New Haven relative to the median household income. Statewide, 50% of renters and 32% of homeowners spend 30% or more of their household incomes on housing. In New Haven, where the $37,192 median household income is lower than the statewide median of $70,331, 57% of the town’s renters and 40% of its homeowners spend 30% or more of their income on housing.

New Haven is one of the few Connecticut municipalities that could see an increase in school enrollment through 2030 because of unusual anticipated growth in school-age (5-19) population of 5% from 2020 to 2030. At the same time, its population is getting older, with a projected increase of 7% in the 65+ population from 2020 to 2030, potentially leading to the need for smaller, denser, more affordable homes closer to the town center, services and, if possible, transit connections.

New Haven is among the third of Connecticut municipalities where single-family homes do not dominate its housing stock (26%) and there is substantial multifamily housing to offer (66% of the units are 0-2 bedrooms, compared to 42% statewide). Many towns in Connecticut built the bulk of their homes after 1970 to accommodate the needs of new Baby Boomer families then in their 20s. In New Haven, only 25% of homes were built in 1970 or after.

Now in their 60s, those families are seeking more modest homes. But their attempts to sell are being met by few offers because few young families can afford to move to those towns, flattening median sales prices and stunting the growth of Grand Lists – the towns’ total value of real property – and thus property tax revenues needed to pay for increasingly expensive services. From 2008 through 2016 (latest OPM figures), 150 towns experienced negative growth in real property values, 2 had no growth and 7 had only slight growth of 2 percent or less. The total real property Grand List in New Haven increased slightly by 2% from 2008 through 2016.

Across the state, 138 of the 169 municipalities have affordable homes totaling less than 10% of their housing stock. These are the kinds of homes increasingly sought by young professionals, families, town workers, downsizing Baby Boomers and others. In New Haven, 30% of the homes are affordable, according to the state’s 2016 Affordable Housing Appeals List.
